HELPING YOUTH WORKERS TO KEEP GOING

episode 07 the numbers game

How do you feel when you hear some version of “Whatcha runnin’?”

What are the positive and negatives of counting our numbers?

We identified 4 outside forces that affect the numbers in our student ministry:

- The state of the church
- The seasons
- The culture
- Other churches

Which of these do you notice in your ministry? Are there others we did not identify?

How do we help others (students, volunteers, church leaders) see the changes in numbers for what they really are?

Our own leadership also plays a role in our numbers. What are some ways we can honestly assess our personal responsibility for our growth or lack of it?

How do we measure true transformation instead of just measuring numbers?

WE'D LOVE TO HEAR FROM YOU!

Send us an email, a tweet, a Facebook comment, or a picture of your dog on Instagram!
